

# STEWARDSHIP REPORT

*An in-depth look at how you are making a difference for our patients, their families and the communities we serve through charitable giving.*

## FROM THE PRESIDENT

As we look back on 2016, there is so much to be proud of: the growth of our digestive health program; the extension of wellness services within cardiology and oncology; our hospital's continued recognition throughout the city, state and across the country; our donors, volunteers, patients, physicians, caregivers and community members. You continue to amaze me.

Susan Nordstrom Lopez

Charitable gifts allocated from the President's Priority Fund allow the hospital to address in health care disparities. We fund initiatives that help improve health outcomes by providing access to integrated health care services that promote health, well-being, independence and quality of life.

So many people have worked so hard to make this collective vision come to life, especially you—our donors. With your generosity, we continue to thrive. Please know that we could not do this without your support. Thank you!

## PRESIDENT'S PRIORITY FUND

## YOUR IMPACT

### ACCESS TO CARE

Behavioral Health Services introduced the “same-day access to treatment” model. *First Access* allows patients in crisis access to services, treatment planning and appointments for ongoing care the same-day it is needed.

### PATIENT CARE IMPROVEMENT

The *Helping Hands* fund provides customized solutions for our patients and their families. This discretionary resource helps individuals access basic living and medical support enabling them to cope and focus on their recovery.

### MEDICAL EDUCATION & RESEARCH

The field of medicine never stops moving forward—and neither should physicians. We are committed to medical education and research for physicians, residents, fellows, medical students and caregivers by providing access to a range of opportunities including exposure to the latest seminars, conferences and symposiums; participating in research initiatives and projects; or improving skills and patient safety through hands-on training and simulations.

**\$50k** will provide housing, transit, clothes and groceries to patients in *Helping Hands*

**406k**  
ALLOCATED

**300**

patients will have access to free and reduced cost medications through the *Medication Assistance Program*

**770**

children and adults with developmental challenges will receive enhanced care through a new imaging system at the *Special Needs Dentistry Program*

**75**

cardiac rehab patients will receive six months of fresh produce and nutrition education
